Both Bob Inman and I want to thank you for the major role you played in the recently completed Colloquium on Future Space Missions. The Military Session which you chaired was very informative and the discussion was certainly well stimulated by you as the moderator. Many of the comments which I have received indicate that the Colloquium was successful and any success was in large part because of the contributions made by you and the other moderators.

I regret that you were unable to be present for the second day of the Colloquium but of course we were well aware in advance that your schedule would not permit it. I especially appreciate your willingness to disrupt your other planned activities in order to be present for the very important first day of the Colloquium.

A summary report on the Colloquium is being prepared and of course you will receive a copy upon its completion. I trust that you will find the document to be useful.

Let me congratulate you on your new position as President of Denver Aerospace of Martin Marietta. The Company is fortunate to have you in this very important role.

Thank you again for your cooperation with us and I look forward to your continuing advice on space and other matters.

Sincerely,

John N. McMahon
